

Clark Healthy Workplace Inventory

You can use the inventory below to help determine the health of your workplace. To complete it, carefully read the 20 statements below. Using a scale of 1 to 5, check the response that most accurately represents your perception of your workplace. Check 5 if the statement is completely true, 4 if it's somewhat true, 3 if it's neutral, 2 if it's somewhat untrue, and 1 if it's completely untrue.

Then total the number values of your responses to determine the overall civility score. Scores range from 20 to 100. A score of 90 to 100 indicates a very healthy workplace; 80 to 89, moderately healthy; 70 to 79, mildly healthy; 60 to 69, barely healthy; 50 to 59, unhealthy; and less than 50, very unhealthy.
